

Sprint 4 Report

CSE 4316

Grace Hopper

December 1st, 2026

Sprint start date:	November 17th, 2026
Sprint end date:	December 1st, 2026
Project title:	CivicPulse Community Service-Request Dashboard
Team name:	Team Fullstack
Partners:	Alan Turing John Von Neumann Ada Lovelace Charles Babbage
Instructor:	Christopher D. McMurrough

1 Sprint Goal

Deliver end-to-end request submission and public tracking with the map picker, on TLS, ahead of the December milestone demo.

2 Sprint Backlog

Planned tasks (hours).

Task description	Estimated work	Actual work
Request submission form + validation (resident portal)	5.0	5.5
Map location picker (geocoding integration)	5.0	6.0
Create-request API + PostGIS schema	5.0	4.5
Public tracking page by id	3.0	3.0
TLS + HTTP-to-HTTPS redirect on staging	2.0	2.0
Accessibility pass on submission flow	4.0	4.5
TOTAL	24.0	25.5

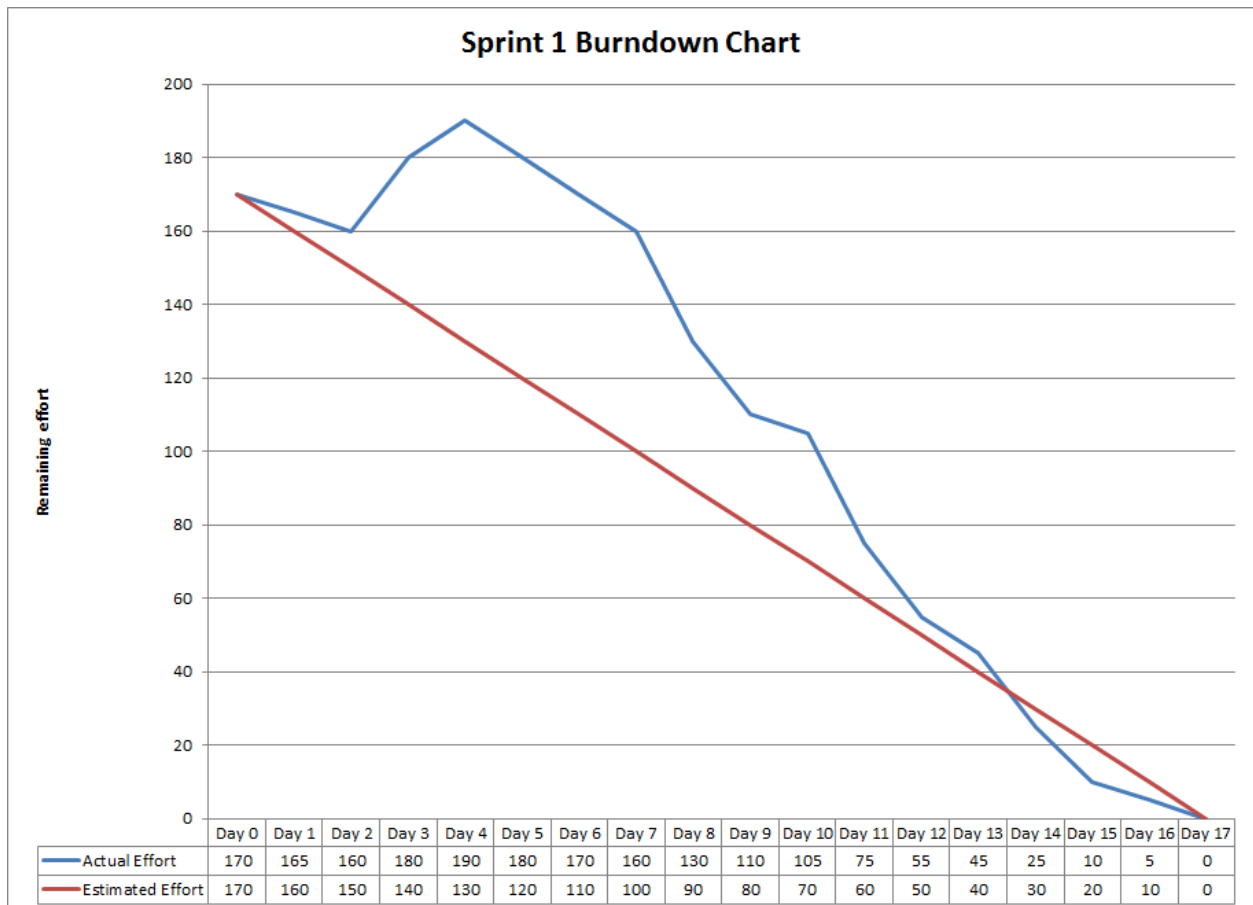

3 Individual Time Expenditures

Tasks performed by the individual (hours).

Task Description	Actual work	Percent complete
Public tracking page by id	3.0	100%
Accessibility pass on submission flow	4.5	100%
Notification email template (draft)	2.5	40%
TOTAL	10.0	-

4 Team Burndown Chart

Ideal and actual daily team effort are shown below.

5 Individual Retrospective

Actions to **start** doing (top 3)

- Run the accessibility linter in CI, not just before demos.
- Mock the geocoding API in tests to avoid rate-limit flakiness.
- Write API contract tests before wiring the frontend.

Actions to **stop** doing (top 3)

- Hardcoding category lists instead of loading them from config.
- Committing secrets to the repo (moved to the secrets manager).
- Skipping mobile-width checks until the end.

Actions to **continue** doing (top 3)

- Pairing on the API contract with John.
- Keeping integrations behind adapters (swap-friendly).
- Short daily blocker syncs.

6 Peer Review

Candid individual assessment; not shared. Each item graded 1–5.
Evaluation items:

- **Participation** - present and contributing?
- **Communication** - timely, effective updates?
- **Work quality** - claimed tasks; met objectives; added value?
- **Professionalism** - professional and collaborative?
- **Overall** - overall value this period.

Team member name	Participation	Communication	Work quality	Professionalism	Overall
Grace Hopper	5	5	5	5	5
Alan Turing	5	5	4	5	5
John Von Neumann	5	4	5	5	5
Ada Lovelace	4	5	5	4	5
Charles Babbage	4	4	4	4	4
